PROFESSIONAL SUMMARY

Data Science and Engineering student graduating February 2026 with hands-on experience in data pipelines, ETL processes, and cloud-based data solutions. Proficient in Snowflake, DBT, Databricks, SQL, and Python with proven ability to build scalable data infrastructure. Strong analytical and problem-solving skills with experience managing complex operations and delivering results in fast-paced environments. Seeking full-time position or internship opportunity to apply technical expertise and drive data-driven solutions.

TECHNICAL SKILLS

- Data Engineering: Snowflake, DBT, Databricks, ETL processes, data pipeline development
- Programming: Python, SQL, Java
- Cloud & Big Data: AWS, Azure, Spark
- Database Management: SQL databases (design, querying, optimization)
- Tools & Methodologies: Object-oriented programming, software development methodologies, version control
- Core Competencies: Problem-solving, analytical thinking, project management, team collaboration, adaptability

EXPERIENCE

Data Engineering Academy | Remote | *October 2024 - Present*

Student Data Engineer

- Build and optimize data pipelines and ETL processes using modern data engineering tools and frameworks
- Develop hands-on experience with Snowflake, DBT, and Databricks in real-world data scenarios
- Work with cloud platforms (AWS, Azure) and big data technologies including Spark
- Currently preparing for project phase implementing end-to-end data solutions

Self-Employed | Columbus, NC | *2020 - Present*

Bookkeeper & Equestrian Professional

- Manage bookkeeping operations and financial records for equestrian business
- Compete internationally in show jumping, demonstrating dedication, discipline, and performance under pressure
- Balance professional responsibilities with full-time academic pursuits in data science and engineering

Luxury Car Exporter | Couture Consulting, Ocala, FL | *January 2018 - January 2020*

- Secured clients in China to purchase luxury vehicles in USA
- Managed logistics of vehicle purchases, ensuring timely and efficient transportation to port
- Coordinated documentation and paperwork for international exports, ensuring regulatory compliance

Racehorse Manager | Ricky Leppala Agent Inc, Ocala, FL | *July 2008 - June 2017*

- Managed sales and barn operations for thoroughbred racehorse business with approximately 40 horses annually
- Sourced and purchased yearlings from prominent sales across multiple states, efficiently transporting to Florida

EDUCATION

Bachelor of Science (B.S.) - Computer Science with Emphasis in Management

South University, Savannah, GA | Expected Graduation: February 2026

Chancellor's List, Dean's List | GPA: 3.9
